THE DIRLETON COMMUNITY WISHLIST SURVEY RESULTS OF THE OPEN DISCUSSION DAY 27 AUGUST 2022

Dear Resident

In 2017 the DVA organised a village survey to find out what the community's environmental and social priorities were at that time. A Community WishList was produced, and that formed the basis of the DVA committee's plan of action for the period 2017- 2022. Many of the wishes on that list have now been realised and new opportunities and challenges have arisen, and so a new Community Wishlist would be useful for the forthcoming period. An open discussion day was held on 27 August 2022 as the first stage of this process.

In addition, the DVA intends to submit a Local Place Plan (LPP) for Dirleton in accordance with the Scottish government's new planning legislation. This is required by May 2024. The relevant community views and priorities from the 2017 and 2022 surveys will be fed into this. A special community meeting about the LPP will be held on 16th March. Details of this will be issued separately.

The suggestions or wishes received from you at the 2022 drop-in session are set out below. The LPP open session will have the same 'scrolls' available for mark-up again, and in addition, there will be a new 'scroll' for you to add your comments to entitled 'Heritage Conservation and Housing'.

A Dirleton Community WishList Feedback from the 27 August 2022 community open day	Wishes from the village discussion day
Community Building: The derelict Village Hall	
A basic low cost project to make 'wind and water tight' only, for use as a common village storage space by all village organisations: (eg: fete and games items, village market items, school sports equipment, bags of winter grit, Christmas lights etc.) (Would allow development to a habitable standard at a later stage)	18
Demolish	7
Refurbish to a habitable standard for a new use or uses. (eg: multi- use, a crafts centre, a small businesses hub, etc.)	8

Road Safety16Progress the road safety suggestions for the Castle Inn and the Castle garden tower blind corners generally16Widen the path around the castle wall tower for buggies and wheelchairs8Reinstate basic white road junction lines around the Green3Plant a hedge with fence around the Play Park2Environmental Improvements6Complete the upgrade of street lighting on the historic greens by continuing the heritage type of street lights around the whole of the main green.6East end road junction: replace the broken deviation sign with a new traditional chevron sharp deviation of route sign1Relocate the blue tourist signboard to a less dominant position and paint supports black1Remove the redundant plastic bollards outside the Open Arms1Improve the bus shelters remove (destructive) ivy from stone walls3Maxwell Road: replace concrete seats with hardwood seats to match the rest of the village4Ruthven Road and Gylers Road: Improve concrete and brick walls5
